

## An aerial photograph of the University of Cambridge campus. The image shows a mix of historic stone buildings, modern academic structures, and large green spaces. A red circle is drawn around a specific cluster of buildings in the center-right of the image, which is the focus of the research paper. To the left of the circled area is a large, ornate building complex, likely the Old Schools. To the right is a large, modern building complex, likely the Engineering School. The surrounding area is filled with trees and other campus buildings.

## An aerial photograph of a residential complex. The complex consists of several multi-story buildings with light-colored facades and flat roofs. Some buildings have green roofs. The buildings are surrounded by dense green trees and vegetation. A parking lot with many cars is visible on the right side of the image. The overall scene is a mix of urban architecture and nature.

## An aerial photograph showing a large, multi-story brick building complex, likely a university campus. The buildings are surrounded by dense green trees and a parking lot. The architecture features multiple wings and a central courtyard area. The surrounding area includes more trees and a paved road.
